MERCHANTS SAVING INSTITUTION
ALSO FOR ALL
Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY.
No. 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of the globe, and warranted to retain its beautiful jet black color which it has at the moment when used, at 50 p. % less than the same can be bought at any other house.

People under the impression, that they pay their $20 more for a quart bottle of English Ink, can have the same proved, that most of the Ink sold for English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and possesses more virtues than most of the Inks.

I—It is of a very rich black at the moment when used.
II.—Retains its color.
III.—Runs freely off the pen.
IV.—A preserver of the eyes to those, who have much to write at night because they need not to force their eyesight, to see what they have written.

For the reasons explained, I hope that any prejudice generally entertained against Home Manufacture will be laid aside, and all I ask is, to try the same which will be a benefit to the buyer, and the country, in assisting Home Industry.

N. B.—Orders left at the office will be punctually attended to and delivered free of any charges.
R. Stenbock.

English grocery store
162—Calle Defensa—162
I beg to inform my friends and the public generally that I have this day admitted Mr. Robert Muir as a partner, and that henceforth the business will be carried on under the firm of
Urie & Muir.
Robert Urie

In addition to the usual stocks of grocery &c. who have just received direct from England several lots of ready made Clothing, shirts, blankets flannels, Exhibition and Tartans shawls, velvet piles, table covers, stockings, Alloa Yarn & :—all of the very best quality suitable for camp and town customers,
Robert Urie, Robert Muir
January 20th 1863, j20—1 v

FRIDAY, APRIL 17, 1868.

THE PUBLIC LANDS.

When a certain uniform price is put upon lands, the power of changing it should rest with the Legislature, and not the Executive. Such change, however, should only be effected after due and sufficient notice to the public, so that private interests may not suffer even for public weal. In the United States, where the greatest speculation ever known or heard of has been carried on, the President never dared to alter the rate of $1 25c per acre, which had been fixed by Congress. Parties who know little or nothing of the comparative value of lands in North America, may suppose that probably there has never existed in that country such excessive discrepancies between the value of public and private lands, as has occurred here. A square league of the best Government land formerly was worth only $200,000, whilst private individuals were getting three, four, and even five times that price. As a natural consequence, in a country where the last thing that is thought of is the prosperity of the citizens, and the advancement of the province at large, the Governor put a stop to such a scandalous, nefarious, unheard of public robbery, and doubled the price of all public lands in the province.

If Mr Saavedra's object was to benefit his country, and put a stop to speculation, we could understand his introducing a rule by which occupiers alone could become purchasers; but, on the contrary, he seems to have taken it into his head, that the more waste lands we have, the better for the country,—that, as a miser hoards his gold, so should the Governor of Buenos Ayres watch the public lands,—that it is the duty of the Governor to keep his eyes open, and see that no one makes a copper real out of public property, and that the greatest scoundrel and swindler is he who purchases a league of Government land at $400,000, and after putting a puesto, corral, or rodeo on it, sells it to Don Patricio O'Finnigan for double or five times he paid for it. Señor Saavedra is a smart man, and was scarcely a week in office when he discovered the whole business.

In the United States, we have known Government land to be selling at the rate of 1000 silver dollars per acre, in Chicago, notwithstanding that the Government price was but $1 25c. Of course the government lost millions and millions; but then it must be borne in mind that they had no Saavedra in Washington, and that consequently the motto in Michigan, Iowa, &c, was—"Cheap land and rich farmers."

In Buenos Aires, the motto is—"Dear land and poor farmers." Gov. Saavedra has succeeded in establishing this rule. He has taken upon himself to double the price of Government land, without leave from the Chambers, or due notice to the public.

As a proof of the injury this Gov. has done the country, by his antiquated notions, we may state that, up to this hour, we are told not a single sale of even one league of public land has been effected at Mr Saavedra's zampillaerostation price, $400,000 per league.

We hold that the more public land sold to actual occupiers, no matter at how low a price, the better for the country.

We hold that the price of private property affords no criterion whatever for the sale of public lands.

We hold also that the Governor should be responsible, both to the country and to individuals, for all the damage, loss and injury which this unheard of land law has created.

We know of one party who bought an estancia a few days before the new law was passed. The price was agreed on, and part of the money paid, the remainder to be given when the title was made out; a covenant in the agreement of purchase and sale stated that either party failing to comply with the terms and conditions, should forfeit 50,000 dollars. The seller of the estancia, the very day after the new law was passed, notified the buyer that he would not carry out his part of the contract, and returned the purchase money already received, and the 50,000 dollars fine. What was the result? The buyer was obliged to pay $150,000 over the original sum stipulated, before he could get the estancia. Several other such cases have occurred, and the greatest discontent prevails in the country parts, on account of this law.

We call upon the Legislature to repeal at once this injudicious order, to put a certain low price upon all Government land, where the purchaser is or intends to be, an occupier, and take from the Governor or his Ministers, the power of intermeddling in such things. So long as we have men of sound judgment and comprehensive ideas in power, there is not so much necessity for curtailing the discretionary power of our first provincial officer; but as it too often happens, men of but one idea get into office, and, as an inevitable consequence, the country has to suffer from the inexperienced efforts of pigmy statesmen.

A public land office is kept up at considerable expense in this city when there is not a particle of business doing. Good salaries are paid to the clerks, yet they have nothing to occupy time with, save reading the *Tribuna*, and smoking paper cigars.

Our Governor who is so careful about the government lands, is singularly extravagant of the public money. We call upon him to shut up the land office, and discharge the clerks. If there is any spare money in the treasury, why not reduce some of the taxes, instead of squandering it in maintaining a public land office, when no one nowadays thinks of investing in such property. People who are obliged to buy lands for their stock, are buying in Corrientes, Entre Rios, and the Banda Oriental; but no one dreams of looking about public lands in Buenos Ayres since the Saavedrian system has come in vogue.

IMPORTANT FROM THE PROVINCES.

THE CHACHO ESCAPES TO CHILE

THE GOVERNOR OF RIOJA DEPOSED

We have the *Ferro-carril* and *Diario* up to Wednesday 15th inst. Mr. Wheelright arrived safely, and the preparations are on foot for the inauguration of the Cordoba railway works. Over 3,000$ has been collected for a public dinner to be given by the merchants to their distinguished guests. A messenger was dispatched to Buenos Aires for whatever is wanting. Some triumphal arches are about to be constructed.

The news from Rioja is variable. Gen. Peñaloza would seem to anticipate defeat and danger, as he is transporting his furniture and household effects into Chile: his daughter has already fled to Coquimbo.

Carlos Angel invaded Catamarca with 350 men on the 31st ult, but was defeated by the National Guard, with a loss of 7 killed and 15 wounded. The rebels however, still threaten that province, and Gov. Correa has begged assistance from Santiago and Tucuman. The Taboada's are in the field with 800 cavalry, in support of law and order; the Governor of Tucuman seems in favor of O'Mill and it is rumored he lately received 400 muskets from Rosario.

Felipe Varela entered the city of Rioja and deposed the Governor, elevating one Francisco Alvarez to that dignity. Col. Agaero also stirred up the inhabitants of Paclia and Pacarilla against the Government.

Minuet's proclamation is a more extraordinary document than even the summons of Ontivero's. He calls on all "patriots" to join him, states that Urquiza and Peñaloza are with him, the caudillos of Buenos Aires having given in, at the very name of the hero of Caseros. He concludes "viva Urquiza, viva Peñalosa! In a letter to his brother, he says everything is regulated by the "man of Entre Rios," and before a fortnight the whole republic will be in a blaze.

The forces of Cordoba have been confided to Sandes, and an interchange of courtesies has taken place between that province and Santiago, relative to Taboada's march towards Cordoba. It was false that Sandes had captured Minuet, as stated in the *Tribuna*. We have not heard whether the guerrilla has shot the Franciscan Friar, whom he took prisoner, nor any explanation about Saa's infant son, said to have been murdered.

The mutineers of Tunas who murdered their chief, Carranza, were seized by the military authorities. Col. Rodriguez has arrested the ring leader sergeant Pablo Madero, with 21 accomplices, who all expect to be shot. They endeavored to join the rebels, but were captured on their march, at Fraile Muerto: they were all well armed, and had 136 horses. They surrendered after a short pursuit.

FIDES PUNICA.

It was somewhat surprising, a few months ago, how minutely our colleagues read every line that we wrote, and at times translated our articles, with remarks proceeding rather from impulse than cool judgment. We have not the least objection that they should pass us over completely, as if no longer aware of our existence; but we do insist on annexing our name to whatever is exclusively our property.

The *Siglo* and *N. Argentina* published the purchase of 450lbs. cotton made in our office, and reported in our paper: yet they most unaccountably concealed our part in the transaction, whereas it is absolutely requisite the Republic should know where Cotton finds a purchaser. We may be *mashorqueros* or what you like, but give the devil his due. This is a repetition of the San Juan mining trick, when we subscribed for 5 shares.

Again, about 30 days ago we presented each of our colleagues with the River Plate Handbook, and they professed themselves enchanted with it, and the "Tribuna" and "N. Argentina" editors even volunteered a [illegible] article, on this volume. The [illegible] could be of little service, or their [illegible] of little injury, to us, but it [illegible] editor [illegible] by a single line the said book. Last week they began puffing Sr. Selveyra's [illegible] not yet published, but they have cast a veil of oblivion over the greatest and most useful labor of our lives.

Colleagues! once for all, if you cannot appreciate our efforts for the regeneration and progress of this country, let us alone; but above all, avoid adopting for a motto the two words which head these observations.

EDITOR'S TABLE.

The English mails have not yet arrived. It is rumoured in Montevideo, that the Brazilian Government refused to allow the Tocantins to carry the English mails, and consequently we will have no news until the 24th when the Mersey is expected.

One million currency, we hear, was paid over yesterday, by the National Finance Minister to the Bank, for burning purposes. The National treasury is in a most prosperous condition. Dr. Velez Sarsfield deserves great praise for the able manner in which he managed his department. He has paid out the National funds with princely generosity, and still the surplus in the treasury is increasing. We perceive that 30 persons have been drafted from prison into the Army, during the month of March. We had hoped this system of degrading our regiments had been abandoned, but regret to find that it is still the practise. With our barracks full of criminals, it is not to be wondered at that the soldiers at night time are becoming worse than a nuisance.

Gov. Saavedra refuses to attend the Cordova Railway inauguration, alleging, as excuse, press of business. We regret this sincerely, as his absence upon such an interesting occasion must be greatly felt. We know, however, that there is an unusual stir in the Gov. House at present. Offices are being cleaned, books written up, and papers filed, so that Mr. Saavedra's political posterity may have reason to praise his system and cleanliness.

A man was found stabbed in the entrails, in front of Sr. Demarchi's the druggist) door the other night. No particulars or trace of the murderer can be got at. We want a coroner badly.

The committees named to solicit subscriptions for the Cordova Railway have had a meeting on Wednesday night. They intend commencing their rounds without delay, as Mr Wheelright hopes to be able to leave in the May British packet. We understand that the Minister of the Interior has told Mr W. that he expects everything will be finished by that time. To-day the Guardia Nacional leaves with President Mitre and Ministers for Rosario. Triumphal arches and what not have been erected in that town.

The Pavon has brought us rather unpleasant news; the leaders of the revolt openly proclaim in favor of Urquiza and Peñaloza. For full particulars see another column

The unfortunate Western Railway seems never out of trouble. We regret to say that the clerks of this concern were all summarily ejected the other day, and the office removed to another part of the Government House

A terrible fight occurred on Monday night, between two Italians, at the Plaza Parque; one got his head frightfully cut, the other escaped, no police being about

The greatest collection of Argentine curiosities is decidedly in our office. We have to thank Sr. Agalla for a ball of Argentine cotton; it is very strong, and is apparently thicker and better than Clarke's or Alexander's. It is on exhibition now. Two gentlemen from the Bolsa called to inspect our cotton gin and cotton; as they were both well known ounce brokers, we regard it as a significant sign of the times. If we succeed in getting the currency question settled, we should not wonder if two thirds of our ounce brokers turned their attention to cotton planting.

The Martinetti Ravel Company seem to be singularly unfortunate in this quarter of the globe. They appeared only once in Montevideo, but it seems to have been sufficient for the Orientals, as we read in one of the papers, that they are cautioned not to give any more performances.

A CASE FOR DR. ALSINA

We had yesterday a visit from Dr. Fernandez of Villa Luxan, a gentleman who had learned our name as the friend of the injured or oppressed, the scourge of back sliding officials, and the best diplomatist in defense of foreign interests. The Juez de Paz of Villa Luxan is a sworn enemy of the "Standard": lest we be suspected, therefore, of undue hostility we will merely state the contents of the documents placed before us.

Mr. Bernard O'Neil is an honest, laborious, Irishman, who has been some three years in Dr Fernandez's employment and actually [illegible] lands [illegible] to examine the [illegible] cited O'Neil, who is deaf and scarcely understands 20 words in Spanish: the latter engaged a countryman as interpreter, but after 5 minutes learned from his counsel that if he said another word he should be placed in irons. The sentence was passed against poor O'Neil. Dr. Fernandez at once demanded on what evidence the decree was based? and not receiving a satisfactory reply, came to town, to consult Dr. Navarro Viola, who has filed an appeal before the Judge of 1st Instancia.

Dr. Fernandez took his capataz to the Cabildo of Luxan to disprove a report that his evidence went against O'Neill, but the Juez refused to listen any further.

The case being now before a higher tribunal we will watch, with interest, its progress, and hope to convince the petty potentates of the camp that they are not legislators, but as much subject to the law as the rudest rustic of their district.

THE "UNION" PIRATES.

Our readers will remember the murder of the Italian crew of the *Union*; the assassins were arrested, contrary to all expectation, among the islands of Upper Parana. Their case was recently tried before the Judge of 1st Instancia, and the following sentences recorded,

Ramon Rios, alias Corro—to be shot
Juan Francisco Gomez do
Saturnino Rios, 10 years hard labor at Patagones. The last named has to witness the execution of his accomplices, which will take place on the mole head. An appeal has, however, been lodged for Ramon and Saturnino Rios.

IMPORTANT TO COTTON GROWERS.

We publish the following one which we hope will serve as an incentive to all the cotton growers throughout the Republic.

Sor. Dn. Miguel de E. T. Mulhall
á Manuel Agalla— compró
3 bolsas algodon con 493 lb. bto.
Neto 49? lb. — á 5 ? $2000
Buenos Ayres Abril 16—1868.
Recibí el importe—
Manuel Agalla

MONTEVIDEO.

At 6 p.m. on Wednesday, no news as yet of the English mail. The "Siglo" has a very proper condemnation of Sandes for staining the Liberal party with such enormities as shooting prisoners. Col. Spikerman's funeral is fixed for next Saturday, at the Matriz church: it seems the Commander of Canelones was jealous of the departed hero, refusing military honors at his interment, when the citizens formed themselves into a guard of honor.

The inhabitants of Mercedes are very gay people, as by latest accounts they were still dancing. The new chief of Police has discovered a wholesale system of fraudulently counter-marking cattle: the offenders will be brought to justice. Notwithstanding the fact of Fregueiro and Lopez' bills being forged by the Italian the authorities insist on payment of same. There is some opposition to the auction of river-ferries as it would cause an inconvenient monopoly. A new college is to be opened in that town. There are three candidates for the curacy, Sor. Brid is the most probable. Several vessels are loading in the Rio Negro: one is taking 5,000 qq. beef for Rio Janeyro.

In Paysandu, the commissary, Medina, has been disgraced; he is charged with horse-stealing, and other official peccadilloes. D. Antonio Ferreyra, Portuguese vice-consul at Gualeguay, died last week. The contract, for a new Macadamized road between Montevideo and Villa Union, has been drawn up. The Chambers are debating the construction of bridges and wharves on the Rio Negro: our enterprising friend Meyrelles is about to run a steamer between [illegible] and Yaguari, to convey passengers to the Uruguay steamboat [illegible]

[illegible]

CULTIVATION OF COTTON

WRITTEN BY AN [illegible] PLANTER.

From its delicate nature, the cotton plant is hard to be suited, in soil and climate, and it seldom happens that such a combination of both is obtained as to perfect the plant, and mature the crop. The consequence is, that few spots are found where these results are obtained with many degrees of uniform success; but these do exist, to just such an extent as to demonstrate most conclusively that soils in proper localities *are* to be found, exactly suited to the successful culture of this delicate plant. With a knowledge of this fact, it becomes a matter of prime importance to understand what these peculiarities of soil are; and where deficiencies exist to search them out, and by artificial means, as far as it may be practicable, to correct or cure these defects of the soil in its natural state. We may not hope to remedy all the imperfections, yet it is the province of the cultivator to approximate, as nearly as possible, and by preparation and culture to endeavour to meet, these peculiar wants of the plant.

The first enquiry which presents itself is, to know what are the peculiarities of those soils which suit the growth and maturity of cotton. Experience is perhaps the best and most reliable test in the settlement of this question, and it is now pretty universally conceded that the best cotton lands are those which are of deep and soft mould, a sort of medium between the sandy and spongy, and those soils which are hard and close; those which are penetrated by the warming rays of the sun, imbibing readily the stimulating gases of the atmosphere, and which allow the excess of rain water to settle so deep into the earth, as to be at a harmless distance below the roots of the young plant. The foregoing are the properties of soil needful to the vigorous growth and early maturity of the cotton plant: and the knowledge of this fact is of great, and, perhaps I might add indispensable, importance to its successful cultivation. For though we may not find, and indeed it is very improbable that we should often find, all these essentials in the selection of a cotton farm, yet, by the aid of proper implements, the plough, hoe, &c, and the incorporations of foreign substances, we may remedy many defects, and supply many of the peculiar demands, of this plant. These are all preliminaries to be arranged and understood, and from this point we set out to discuss the question, as to the best method of cultivating the cotton crop. It may already have been inferred, but I am not willing to leave it to inference, but make the broad assertion, that in my opinion, the best and most important part of the work in cotton cultivation consists in a judicious and proper preparation of the soil for planting. It is difficult to say in all cases, and in the varied condition in which lands are found, and the almost endless diversity of soils, what the preparation should be: but we may lay down general principles for our government, and results to be obtained, and leave the plant to the selection of the best means at command for their accomplishment.

All land for cotton ought, before the crop is planted, to be broken deep, close, and soft, and this is to be done long enough before planting to allow the rains gently to settle them.

It is the most common and perhaps the best plan, to prepare all lands intended for cotton, in beds made by the turning plough; and in flat and wet lands, sometimes an additional elevation ought to be given, by drawing up the beds with the hoe. I am the advocate of deep [illegible] beds, made by thorough and close ploughing, but consent to the necessity or benefit of elevating much, lands which are warm and dry, and which are not subject to inundations from excessive rains. For the convenience of culture, I would have the young cotton stand on a slight elevation, but when the condition of the land did not require it, I would not give it more.

The distance to be given is the next enquiry to be considered. This is a very important object, and one upon which we are very dependent for success, and yet it must be varied very much by circumstances, some of which are beyond our knowledge or control. The general principle may be stated and then our best practical judgment must guide us in its application.

When the crop is at maturity, the branches of the stalks ought lightly to interlock every way. We cannot therefore do better in planting than make an estimate of the probable average size to which the weed will grow, dependent of course upon the vicissitudes of the seasons. It would therefore be vain to attempt to be more specific in directions which must be varied always to suit the varied character of the soil. This whole question then is to be settled upon the principles already stated. The planting should be in drills, and I would add, for the information of [illegible] be without experience, [illegible] in a medium land, [illegible] about four [illegible] in the drill [illegible] from twelve to twenty inches from each other. The width of the rows and the distance in the drill may be increased [illegible] and in some [illegible] very thin land, it may fall below [illegible] I do not regard it a matter of indispensable importance, but should decidedly prefer that the row should run in such directions as to give the plant the largest benefit of the sun from early morn to its setting. *The cotton is decidedly a sun plant.*

LOCAL EVENTS.

THE SIGLO of Montevideo has changed editor and is now written by a young man of intelligence Dr. Jose P. Ramirez,

JOHN SPIKERMAN the fourth surviving officer of the 33 who invaded Banda Oriental in 1825 and liberated it from Brazil, died in Montevideo a few days ago.

THE TOBACCO CROP in the province of Santiago has been lost this year owing to heavy rains, the same has happened in the province of Tucuman where the price had increased considerably.

JUAN SAA the celebrated Lanza seca is at present in Mercedes Banda Oriental, taking benefit of the baths.

NORTHERN RAILWAY, The works are progressing steadily and probably will be inaugurated as far as Los Olivos by the end of this month. The drawings for the tramway to the Custom House we are glad to hear are already prepared and the works will be commenced in accordance.

MARTINETTI RAVEL — This company performed at Montevideo a few days ago, their reception by the public was the same as in Buenos Ayres—unhappy.

PONTON CASTELLY.—The 45 soldiers lately arrived from Europe have been ordered to serve on board this ship.—What they have to do there, nobody knows for it is not necessary to employ 45 men to make signals.

PUBLIC ROADS.—The highroad of San Jose de Flores has received important repair under the superintendence of Sr. Castro, Justice of the Peace and that of San Fernando &c. by Sr. D. Miguel Azcuenaga who has addressed a lengthy report to the Government on the subject. It is feared however that as the repairs have commenced rather late in the season should the winter commence early, there will be no time for consolidation previous to the rainy season.

CORDOVA RAILWAY.—The native committee have already commenced collecting subscriptions for this enterprize.

Governor Saavedra is not going to Rosario to the ceremony of inauguration, which seems very strange.

The National Ministers Velez Sarsfield and Elizalde will accompany the President.

8TH OF THE LINE.—The name of the officer who is to command this regiment in the province of Salta is remarkably English and historical. It is Colonel James Wellesley Wilde.

SAN JUAN.—The news from the mining districts of this province are very satisfactory. Several Chilian miners were preparing to import capital and labour to extract the ores.

On Change.

April 16.

Ounces opened at 427 and closed at 427 1|2 very few being sold for cash, only 920.

417 for Friday at 427

1102 for Saturday at do

400 for Thursday at do

3150 for 30th April at 426 to 26 1|2.

1500 for 31st May at 424.

Total sales 7489 ounces, no foreign coins or Boliviano specie.

We notice however a sale of 10 gas shares at 10 per cent premium.

In the plazas and deposits to day there has been more animation than we expected and sales have been effected as follows.

Dry Hides.—450 common camp at 105 to 112, 300 do do at 111.

Wool.—A deposit of 6,000 arrobes at private terms, 600 do superior free of borrega at 95, 1,500 do good at 86, 1,400 do at 85, 400 do at 82, 300 do at 80, 260 do mixed at 70, 400 do borrega at 62.

In the Bolsa we quote the following transactions.

100 pipes tallow private terms.
150 pipes tallow 13 7|8 rls.
1000 salted horse hides 13 rls.
300 dry Entre Rios do 39 rls.
20 pipes mare's grease $ 33.
4600 head of cattle, South $ 80.
1000 head of cattle, on time $ 80.
500 sheep on time $ 40.

The British ship Persian has been chartered to load bones and bone ash for Liverpool direct at 35sh 5 per cent.

Yesterday the following sales were effected besides those we metioned.

1200 dry Entre Rios hides 40 rls.
300 do de do 39 "

---

Amber Teeth Setting.

156—Calle Cuyo—156

Charles E. Krause sets teeth by a new intention, amber, which is found superior to every other mode. It accommodates itself to the gums and palate much better than gold, which requires springs. A set of teeth in amber, after two days, serves for mastication, speaking, and lasts a life time.

My collection of artificial teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.

I have a number of instrument for extracting roots of teeth, also for stuffing the same with gold, silver, &c, which I guarantee for a number of years.

Briton and Medical General (Incorporated with the Unity General.)

Life Assurance association chief offices West strand London w c, Capital 3,000,000 £ sterling. Propositions for life assurance are received and immediate attention paid to the same. A prospectus of rates and other particulars will be furnished on application to the company's agent in this city.
